

# Cosigo Silver Custody and Commitment Affidavit

## (Non-Sovereign Custodian — Refined)

### **Disclaimer**

This affidavit is not a prospectus, solicitation of investment, or securities offering. It is a sworn declaration made in good faith to disclose the existence, custody, and intended application of physical silver within the Cosigo Project.

Participation in Cosigo involves material risk. No guarantee of outcome, value, liquidity, redemption, or legal recognition is made or implied.

### I. Declaration of Custodianship (Civil Law)

I, \_\_\_\_\_ (Full Legal Name), holder of identification \_\_\_\_\_ (Identification Type & Number), acting in a **non-sovereign capacity** and subject to the civil law jurisdiction of \_\_\_\_\_ (Country / State), do solemnly swear and affirm under penalty of perjury as follows:

#### 1. Role and Status

I serve as a **Silver Custodian** (also referred to operationally as a microbank) within the Cosigo framework. I hold in secure custody

\_\_\_\_\_ troy ounces of physical silver, located generally at \_\_\_\_\_.

As a non-sovereign custodian, I act under the authority and limitations of applicable civil law. All disputes, obligations, and remedies relating to this affidavit are governed by the civil law of the stated jurisdiction.

Participants engaging with this affidavit acknowledge that their claims, if any, are likewise subject to civil law and may be limited, delayed, or unavailable.

**Transition of Status:** A custodian operating under civil law who later elects to claim sovereign capacity may only be recognized as such upon submission of a separate sworn transition affidavit, witnessed by two parties, delivered by certified mail to Cosigo headquarters, and published to the Cosigo affidavit ledger. Until such filing is complete, this custodian remains governed by civil law.

---

## 2. Silver-Backed Standard and Technology Scope

The silver described herein is dedicated to supporting Cosigo representations at a reference standard of **1 Cosigo unit = 1 milligram of silver**, subject to the Cosigo Codex and applicable policies.

Current use of ERC-20 infrastructure is a matter of technical availability and convenience only. Statements regarding potential future transitions, alternative architectures, or governance evolution express intent rather than obligation and shall not be relied upon as guarantees or inducements.

---

## 3. Codex Duty (Good Faith)

I commit to uphold the Cosigo Codex in good faith, including honesty and transparency in issuance, registration, redemption requests, and settlement processes, within the limits of applicable law and operational capacity.

---

## 4. Fees

Fees may include, without limitation: - Minting or registration fees - Redemption or withdrawal fees - Shipping, insurance, and logistics costs borne by the redeemer - Administrative or commission fees disclosed publicly

All fees shall be disclosed in advance. No undisclosed charges shall be imposed.

---

## 5. Redemptions, Reserves, and Restitution

Redemptions are subject to operational capacity, legal constraint, and force majeure.

As a matter of good-faith policy, I commit to maintaining reserves exceeding outstanding commitments, with a stated target of up to double the committed amount. This policy **reduces exposure to loss** but does **not** constitute a guarantee, insurance, or assurance that restitution will always be possible under all conditions.

In the event of loss, damage, or non-fulfillment attributable to negligence or fraud, restitution shall be attempted in physical silver from uncommitted reserves, subject to availability and law.

---

## 6. Liability

I accept liability for negligence or fraud within the limits of civil law. I do not accept liability for force majeure events beyond reasonable control, including but not limited to war, confiscation, natural disaster, border closure, or systemic disruption.

---

## II. Disclosure of Hypothecation and Third-Party Risk

I acknowledge and affirm that any asset or representation associated with Cosigo may be referenced, reused, pledged, abstracted, or leveraged by third parties beyond the control of the Custodian or the Cosigo Project. This includes, without limitation, off-chain derivatives, lending arrangements, synthetic exposure, custodial over-issuance, or secondary claims.

Neither the Custodian nor the Cosigo Project represents that such activity can be prevented, detected, or unwound.

No central reserve, insurance pool, guarantor, lender of last resort, or systemic backstop exists. Losses are not socialized.

---

## III. Verification Evidence

A sworn statement documenting the physical silver described herein has been recorded on video in the presence of witnesses.

### **SHA-256 checksum of evidence file:**

---

The recording depicts the custodian, witnesses, and visible silver in a continuous, unedited sequence. Any alteration invalidates the evidence.

A certified mail package containing this affidavit may be delivered to Cosigo headquarters and published to the Cosigo affidavit ledger.

---

## IV. Witness Attestation
